

Making Earned Income Count

I got my taxes done at a volunteer income tax site. I saved money, avoided fees and costly refund loans and e-filed for free! The money saved and tax credits received help me catch-up on bills, pay property taxes or make needed repairs to the family car. I spend my refund in our community on basic needs which also helps our local economy.

Please support free community-based volunteer income tax assistance programs and help hard-working men and women like me keep more of what we earn in our community!
